

CONTENTS

Vol. 55, No. 2, 2010

	Page
\mathcal{A} -simple multigerms and \mathcal{L} -simple multigerms by T. Nishimura	93
Diagonal slides and rotations in quadrangulations on the sphere by A. Nakamoto and Y. Suzuki	105
B. Y. Chen's inequality and its applications to slant immersions into locally conformal almost cosymplectic manifolds by S.S. Shukla and P.K. Chaubey	113
Fractional calculus and infinite order differential operators by A. Asada	129
Logarithmic-type functions of the differential operator by N. Nakanishi	149
On the integer ring of a Kummer extension generated by a power root of a rational number by H. Ichimura	165
On congruent embeddings of a tetrahedron into a circular cylinder by H. MAEHARA	171
Distinguishing chromatic numbers of planar graphs by S. Negami and S. Sakurai	179
Addendum	189
