

## CONTENTS

Vol. 56, No. 1 & 2, 2010

	Page
An extension of the Majorana uniqueness theorem to Hilbert spaces by E.R. Hassan .....	1
Existence of homoclinic solutions for a nonlinear elliptic boundary value problem by T. Amaishi and N. Hirano .....	9
Almost stability of iterative schemes involving a uniformly hemi-contractive set-valued mapping in a Banach space by H. Manaka .....	31
Morita equivalence of twisted poisson manifolds by Y. Hirota .....	45
Orbit equivalence of one-sided subshifts and the associated $C^*$ -algebras by K. Matsumoto .....	59
